

DIRECTORY
of
Non-Public Schools

1961-62 School Year

STATE DEPARTMENT OF PUBLIC INSTRUCTION
DIVISION OF INSTRUCTIONAL SERVICES
OFFICE OF NON-PUBLIC SCHOOLS
RALEIGH, NORTH CAROLINA
1962

FOREWORD

This directory has been compiled from information reported to the State Department of Public Instruction by the schools which are listed. In addition to directory information, this publication contains extracts of North Carolina Public School Laws relating to the operation of non-public schools.

There is a possibility that some schools may not be included and that the information may be incomplete for some schools listed in this initial issue of a directory of non-public schools in the State. It is hoped that future directories will contain a more complete and definitive listing of all such schools in North Carolina.

Samuel C. Stell

Samuel C. Stell
Supervisor of Non-Public Schools

PERTINENT SECTIONS OF PUBLIC SCHOOL LAWS OF NORTH CAROLINA
RELATING TO 1961-62 NON-PUBLIC SCHOOLS

ARTICLE 32
Non-Public Schools

115-255. Responsibility of State Board of Education to supervise non-public schools. The State Board of Education, while providing a general and uniform system of education in the public schools of the State, shall always protect the right of every parent to have his children attend a non-public school by regulating and supervising all non-public schools serving children of secondary school age, or younger, to the end that all children shall become citizens who possess certain basic competencies necessary to properly discharge the responsibilities of American citizenship. The Board shall not, in its regulation of such non-public schools, interfere with any religious instruction which may be given in any private, denominational/parochial school, but such non-public school shall meet the State minimum standards as prescribed in the course of study, and the children therein shall be taught the branches of education which are taught to the children of corresponding age and grade in the public schools and such instruction, except courses in foreign languages, shall be given in the English language. (1955, c. 1372, art. 31, s. 1.)

115-256. Teachers must have certificates for grades they teach; instruction given must substantially equal that given in public schools. All non-public schools in the State and all teachers employed or who give instruction therein, shall be subject to and governed by the provisions of law for the operation of the public schools insofar as they apply to the qualifications and certification of teachers and the promotion of pupils; and the

instruction given in such schools shall be graded in the same way and shall have courses of study for each grade conducted therein substantially the same as those given in the public schools where children would attend in the absence of such non-public school.

No person shall be employed to teach in a non-public school who has not obtained a teacher's certificate entitling such teacher to teach corresponding courses or classes in public schools. (1955, c. 1372, art. 31, s. 2.)

115-257. Operators must report certain information. The supervisory officer or teacher of all non-public schools shall report to the superintendent of the administrative unit in which such school is located within 2 weeks of the opening of such school, and within 2 weeks of the enrollment therein, the names of all pupils attending, with ages, parents' or guardians' names, and places of residence. Likewise, such officer or teacher shall report to such superintendent the withdrawal of any pupil within 2 weeks of such withdrawal. The supervisory officer/teacher of non-public schools shall make such reports as may be required by the State Board of Education, or such additional reports as requested by the superintendent of the administrative unit where such school is located; and shall furnish to any court from time to time any information and reports requested by any judge thereof relating to the attendance, conduct and standing of any pupil enrolled in such school if said pupil is at the time awaiting examination or trial by the court or is under the supervision of the court. (1955, c. 1372, art. 31, s. 3.)
